

Size Limits - Metal, Glass, Wood Countertops

Craft Art uses joints/seams to create custom shapes and extended sizes in many cases.

Maximum sizes of single piece materials are listed below.

MATERIAL	Max Length	Max Width	Thicknesses	Comments
METAL				
Stainless Steel	132"	54"	1-5/8"	Metal wrapped around substrate to achieve thickness.
Zinc	140"	32"	1-5/8"	
Copper	140"	30"	1-5/8"	
Bronze	116"	42"	1-5/8"	
GLASS				
All Glass Types	128"	54"	1/2" 3/4"	
WOOD				
Bamboo	96"	Any (if length 96" or less)	1-1/2"	If width is < 96", grain direction can be manipulated to achieve longer than 96" lengths.
All other species	Up to 168" has no extended lead time. Typical 240" maximum with extended lead time	Any width that fits in your doors!		Thickness from 1.25" - 24" depending on shape and construction style.

Construction Styles - Available Thicknesses		
Plank Style/ Furniture look	1.25" - 2"	Thickness up to 2.5" may be possible with extended lead time.
Edge Grain/ Butcherblock	1.25" - 6"	Thickness up to 10" may be possible with extended lead time.
End Grain/ Checkerboard	1.75" - 6"	If rectangle or square, thickness up to 24" may be possible with extended lead time.
